Call for Abstracts and Registration of Interest

You are invited to submit an abstract (approx. 150-250 words), along with your relevant biographical details (approx. 50 words) by 15th July 2004. You will be notified regarding the acceptance, or otherwise, of your abstract by the 15th August 2004.

Formats for Abstracts should be as follows:
- Microsoft Word document
- Times New Roman - 12 point
- Full name & address details for all presenters & co-presenters - presenters & co-presenters names must be underlined.
- Names of all authors
- Abstracts should be emailed to gnss@orgaus.com.au

Refereed Papers To Be Published

The papers accepted for oral/poster presentations will be reviewed for publication in a special issue of the Journal of Global Positioning Systems (www.cpgps.org/journal.php). The Scientific Committee Chair, Professor Chris Rizos, has been invited to be the Guest Editor for this special issue.

Organising Team

Symposium Convenor:
Dr Jinling Wang (University of New South Wales)

Chair of the Scientific Committee:
Prof. Chris Rizos (University of New South Wales)

Chair of the 5th CGSIC/IISC Meeting:
Mr. Keith McPherson (Airservices Australia)

Chair of the International Program Committee:
Prof. Sang Jeong Lee (Chungnam National University)

Chair of the Publicity and Exhibition Committee:
Dr Craig Roberts (University of New South Wales)

Symposium advisors:
Prof Chris Rizos (University of New South Wales)
Rob Henshaw (Director, Organisers Australia)

Enquiries
All enquiries should be addressed to the Symposium Secretariat below:-
GNSS 2004 Symposium
c/- Organisers Australia
PO Box 1237 MILTON QLD 4064 Australia
Ph: +61 7 3371 0333 Fax: +61 7 3371 0555
Email: gnss@orgaus.com.au Web: www.gnss2004.org

Expression of Interest:

Please complete the information below and forward to Organisers Australia, PO Box 1237, MILTON Qld 4064 Australia:

☐ I am interested in attending the symposium
☐ Please forward information regarding the Trade Exhibition
☐ Please forward information regarding Sponsorship Opportunities
☐ I am interested in submitting a paper
☐ I am interested in presenting a poster paper
☐ I am interested in presenting a workshop.

TOPIC selected for paper, poster or workshop presentation:

Title: (e.g. Prof/Dr/Mr/Mrs/Ms/Miss):
Surname:
Given Name:
Position:
Organisation:
Mailing Address:
Suburb/Town:
State:

The Event
The School of Surveying & Spatial Information Systems at the University of New South Wales (UNSW) is proud to host the GNSS-2004 symposium in the beautiful harbourside city of Sydney, Australia, from Monday the 6th to Wednesday the 8th December 2004.

The 2004 International Symposium on GPS/GNSS, GNSS-2004, will be the largest international symposium in the Asia Pacific region dedicated to satellite-based positioning technology and applications.

For the first time in its ten year history, the GNSS-2004 symposium is being held outside of the North Asia region.

In addition to the keynote speakers, oral and interactive poster sessions, workshops and a trade exhibition, the International Information Subcommittee of the US Civil GPS Service Interface Committee (CGSIC) will organise an informative session on Global Navigation Satellite System developments.

The Venue
The University of New South Wales is situated near the business hub of Sydney, providing easy access to a wide range of academic, cultural and social activities, and less than 5km from some of the most famous beaches in the world. The 38 hectare Kensington site, the main UNSW campus, consists of state-of-the-art faculty and service facilities that combine to provide an ideal educational and communal environment for all students.

UNSW enjoys the reputation of being Australia’s leading international university as well as one of Australia’s leading research institutions. The Faculty of Engineering is the largest in Australia.

A wide range of accommodation is available nearby, including on-campus college accommodation for students.

Supporting Organisations
The symposium is being supported by the following organizations:-
- Australian Global Positioning Systems Society Inc. (GPS Society Inc)
- Australian Institute of Navigation (AION)
- International Association of Chinese Professionals in Global Positioning Systems (CPGPS)
- International Association of Geodesy (IAG) Commission 4
- International Association of Institutes of Navigation (IAIN)
- International Federation of Surveyors (FIG) Commission 5
- The Satellite Navigation and Positioning Group, UNSW

Your Opportunities
- Discuss the current developments in navigation and location based services
- Learn about the newest products, services and applications on the market
- Interface with users, manufacturers and service providers
- Mix with professionals from varying backgrounds in a true cross-disciplinary event
- Be informed of the latest international research on navigation and location based services

Trade Exhibition
A trade exhibition, which will be open from Monday 6th to Wednesday the 8th December, is included in the Symposium registration. GNSS-2004 will be the largest:
- GPS/GNSS
- Navigation
- Mobile Location

eXhibition serving the Asia Pacific region in 2004.

This is a great opportunity to see the latest products offered by leaders in the field of equipment, services and applications in positioning, navigation and more.

Sponsorship
Many symposium sponsorship opportunities are available and can be viewed on the web page at www.gnss2004.org or contact the Symposium Secretariat to receive a copy of the sponsorship prospectus. Sponsorship opportunities can be tailor made to suit your requirements.

Pre-Symposium Workshops
Keynote presenters from Overseas and Australia will give relevant workshops to interested participants on Sunday 5th December 2004. Further information on the workshops will appear on the conference website.

Call for Papers - Abstracts
The Symposium is soliciting abstracts on a wide range of GPS/GNSS related topics including, but not limited to, positioning, navigation, inertial systems, precise timing, receiver technology, signal interference and multipath, wide area augmentation, location technology, integrated systems, location-based services and GPS/GNSS applications in aviation, surveying, mapping, geodesy and geodynamics.

Abstracts are only accepted on the basis that presenters register for the symposium and pay the discounted registration fees by the early-bird date.
